

Hello Sammy we have never had the chance to talk after that day March 8,1988

I don't suppose you remember they told me you were on steroids, maybe that's what it was in you, that took out Louie, but I guess I am here to remind you.

What you did to Louie he would never have done to you!

I understand you are on the computer in prison well how does it feel to hear from Louie Milito's wife?

My family has been destroyed by taking away the rock they needed so well.

I had good kids but not anymore they are stuck with that whole in their heart that I can't mend, the only one that would be able to do it is Louie but he is gone, where he is?

Anyone reading this please with info on Louie's demise please bring Louie's death to closure for our family so we can try to move on.

Well Sammy you know how to get in touch lynda@mafiafamilive.com I would come anywhere I had to in order to lessen my kids load.

Deena and Louis you remember lets let Louie rest in peace if its the last good thing you might do.

I await the message

Sincerely,
Lynda Milito
